Results-driven Full-Stack Web Developer passionate about crafting efficient, scalable, and user-focused web applications. Backed by real-world project experience and a commitment to continuous improvement across both frontend and backend stacks.

Work Experience

Full-Stack Web Developer Intern – PT. Ciptadra Softindo

Jul 2025 - Dec 2025 | Depok, Jawa Barat

- Engineered and maintained scalable, full-stack web applications using **Next.js** (React-based SSR framework) and **Laravel**, applying clean architecture principles and ensuring maintainability across both frontend and backend codebases.
- Designed and integrated **RESTful API services**, built secure authentication and authorization flows (including session/token-based login), and implemented optimized database queries to reduce response times and improve app performance.
- Translated Figma-based UI/UX designs into pixel-perfect, responsive interfaces with **Tailwind CSS** and React components, enhancing user experience across desktop and mobile devices.

Founder & Technical Mentor – ‘COMMIT’ SMK WIRABUANA

Feb 2023 - Jan 2025 | Kab. Bogor, Jawa Barat

- Founded and led *COMMIT(Community IT)*, a student-led coding community at SMK Wirabuana, with the mission to help junior students learn web development through peer mentoring.
- Personally mentored over **15+ students**, teaching fundamental concepts of HTML, CSS, JavaScript, and Laravel through weekly hands-on sessions and project-based learning.
- Created structured learning materials, curated challenges, and provided real-time debugging support to help students build real-world applications.

Education

SMK WIRA BUANA – Vocational High School

Software Engineer • 2023 - 2026

Relevant coursework: Web Programming, Object-Oriented Programming (OOP), Mobile Development

- Achieved **the highest academic score in the department**, consistently ranked **1st in class** throughout most semesters.
- Focused on practical software engineering skills, including full-stack web development, databases, and system design.

Additional Information

- Technical Skills: Laravel, NextJS, React, RestAPI, MySQL, MongoDB, Git, Node JS, Typescript, Javascript, PHP
- Certifications: Responsive Web Design From FreeCodeCamp
